In determining the latter amount consideration has been given to the age of the decedent at the time of death; the number of years decedent would have been employed; the actual yearly salary at the time of death; the average yearly salary projected over the years the decedent would have been employed; the expenses decedent would have incurred over the years such as family expenses, income taxes and personal expenses, and the present worth of the contributions.

The amount of the claim for the surviving parents includes a specific allowance for shock and emotional anguish suffered by the parents as a result of the violent severing of family ties. It also includes an allowance for future support, services and other bene-

The Embassy of the United States confidently anticipates on the basis of assurances previously given by the Government of Israel that the Government of Israel promptly will compensate the United States on behalf of the widow and parents of [redacted] for the amount claimed.
